Professional Summary

Data Analyst skilled in SQL, Power BI, and Python, focused on turning data into meaningful insights and building data-driven solutions, with a growing interest in machine learning.

Education

Bachelor of Computer Applications (BCA)

Soban Singh Jeena University

July 2023 – July 2026

Technical Skills

- **Languages:** SQL, Python, C++
- **Tools:** Power BI, Excel, Streamlit
- **Technologies:** Machine Learning, Data Analysis

Projects

Supply Chain Shipping Analysis

GitHub

- Conducted end-to-end analysis of supply chain and shipping data using **Python** and **SQL** to identify delivery delays and cost inefficiencies.
- Built interactive dashboards using **Power BI** and **Streamlit** to visualize key metrics such as shipping time, carrier performance, and order trends.
- Performed data cleaning, transformation, and exploratory data analysis (EDA) to extract actionable business insights.
- Identified patterns affecting logistics performance, enabling data-driven decision-making and operational improvements.

Experience

Data Analytics Intern

Unified Mentor

Feb 2026 - May 2026

- Worked on real-world datasets to extract insights and improve decision-making.
- Built dashboards and reports using Power BI.

Achievements

- Completed multiple hands-on projects in data analytics and machine learning using Python, SQL, and Power BI.
- Developed and deployed a Streamlit-based supply chain analytics application for interactive data exploration.
- Actively learning and applying machine learning techniques to solve real-world datasets.
